

# UNIVERSIDADE DE ÉVORA

## - Internet Access Guide-

All users who have access to the **Eduroam** wireless network should preferably use this network.

If you do not have access to Eduroam network, to access the Internet via wireless you should connect to the network **FWUE**.

The FWUE network is not visible so it has to be added manually. Follow the steps below.

Note: Both networks can be used at any location with wireless coverage in the University Campus.

### **Step 1 - Connect to Wireless Network FWUE**

These instructions are transversal to any operating system (Linux, Windows, iOS, Android, etc) or device (laptop, tablet, smartphone, etc.).

- 1) Enable Wireless connection
- 2) Add manually Wireless Network or Network Profile
- 3) Configurations:
  - a. Network Name or SSID: **FWUE**
  - b. Security: **None** or **No Authentication (Open)**
  - c. Select: **Start this connection automatically**
  - d. Select: **Connect even if the network is not broadcasting**

## **Step 2 - Enable Internet Access**

Once completed the FWUE network connection, you must open the Internet browser.

The first time you enter FWUE the Internet access is disabled. When trying to access any page will be redirected to the following page:

The screenshot shows a web page for the Universidade de Évora. At the top left is the university's logo, a red stylized 'U' with a white bird-like shape inside. To the right of the logo, the text 'UNIVERSIDADE DE ÉVORA' is displayed in a bold, sans-serif font. Below the logo and text is a black circular icon containing a white key symbol. Underneath this icon, the text 'Autenticação FWUE' is centered. There are two input fields: the first is labeled 'Nome de utilizador' and the second is labeled 'Palavra-passe'. Both fields are empty and have a light gray border. Below the input fields is a blue button with a white checkmark icon and the text 'Continuar'. At the bottom of the page, there is a dark gray footer area containing small text. On the left, it says 'Se tem questões sobre esta página, entre em contacto com a equipa de suporte. Por favor, forneça as seguintes informações:'. On the right, it displays 'IP 10.1.224.12' and 'MAC aa:1d:ed:1e:21:e1'.

Note: This access will only be active during the event.

After entering the credentials a second screen appears. It is not strictly necessary to restart the browser, it is only a recommendation to ensure compability.
